

PE8000 G Pressed and Planed

Lime Green

Safety Sheet

1.	Substance/preparation	PE8000 G
2.	Physical and chemical characteristics	Form: Solid Colour: Yellow-Green, Black Smell: not applicable Density: 0,95 ... 0,96 g/cm ³ Melting range: 100° ... 140° Thermal decomposition: ≥300°C Auto-ignition temperature: ≥300°C
3.	Handling and storage	Handling: The product can be machined with usual machines and tools. Prior machining make sure the product is at room temperature. Storage recommendations: Horizontal, dry, protected against weather influences.
4.	Transport information	Hazardous goods regulation: This product is considered as non-hazardous Loads securing on roads: DIN EN 12195-1 has to be considered and fulfilled Labelling obligation: the product is not subject to labelling according current EC regulations or other known sources of literature. Particular national regulations: None
5.	First-aid measures	General information: No special measures required. Inhalation: Provide fresh air; seek medical attention if symptoms develop or persist. Skin contact: Wash affected area with soap and water. Eye contact: Flush eyes with water for several minutes, while holding the eyelid open. Seek medical attention if symptoms develop or persist. Swallowing: Seek medical attention if symptoms develop or persist.
6.	Fire-fighting measures	Suitable extinguishing agents: water, foam, dry powder, carbon dioxide. Possible combustion products: Carbon monoxide and carbon dioxide can be released during combustion. Necessary productive equipment: Complete protective equipment for fire fighters, use self-contained breathing apparatus.
7.	Information on Disposal	Recommendation: Consider recycling. Contaminated material: Disposal according to the applicable regulations.
8.	Hazard	Particular hazard for human and environment: none
