

FLUROSILICONE SPONGE : SIL-X-700-FFF BLUE

The grade SIL-X-700-FFF is a fluorosilicone, closed cell sponge that can be used in most gasketing applications.

This material is flexible and compressible and designed for use in extreme temperature ranges with excellent weathering characteristics; compression set resistance, electrical strength and non-stick properties.

SIL-X-700-FFF is often chosen as the material of choice for applications containing oils and fluids that would degrade normal elastomers.
